

Business, Economic and Financial Data
Final exam (practice)

Prof. Mariangela Guidolin

January 25th, 2021

Name, Surname:

The dataset OS.xlsx contains information regarding quarterly downloads of two mobile Operating Systems, "iOS" and "Android", for the period Q1/10-Q3/17.

- 1. Provide some modelling options for the series "iOS", by possibly accounting also for the information regarding "Android". (8pt)*
- 2. For each of the modelling solutions proposed, discuss the results obtained, highlighting merits and limitations of these. (8pt)*
